

# Try It Out!

## Milk Matters!

Use the information on the front of the page to answer the questions below.

1. Maya is a 1-year-old at your family child care home and eats lunch at the same time as Darrick, who is 2 years old. What type(s) of milk may you serve each child?

Maya's Age:

Type(s) of Milk:

Darrick's Age:

Type(s) of Milk:

2. Olivia is a 5½-year-old who attends your family child care home. What kind(s) of milk may you serve her in the CACFP?

Olivia's Age:

Types of Milk:

3. At your adult day care center, you want to serve yogurt at breakfast and again that same day, during lunch. Both times, yogurt would be served in place of milk. Is this allowed? Why or why not?

**Answer Key:**

1. **Maya's age:** 1 year. **Type(s) of Milk:** Because Maya is 1 year old, she can only be served unflavored whole milk in the CACFP. If she is younger than 1 year and 1 month (13 months), she can also be served iron-fortified formula. There is a 1-month transition period to help children adjust to whole milk between the ages of 12 months and 13 months.

**Darrick's age:** 2 years. **Type(s) of Milk:** Because Darrick is 2 years old, he can be served unflavored fat-free (skim) milk or unflavored low-fat (1%) milk. If he is younger than 2 years 1 month (25 months), he can also be served unflavored whole milk, and unflavored reduced-fat (2%) milk. There is a 1-month transition period when the child turns 2 to help him or her adjust from whole milk to fat-free (skim) or low-fat (1%) milk.

2. **Olivia's Age:** 5 ½ years. **Type(s) of milk:** Because Olivia falls into the 2- through 5-year-old age group, she can be served unflavored fat-free (skim) milk and unflavored low-fat (1%) milk.

3. No, you are not allowed to serve yogurt instead of milk at breakfast AND at lunch. You are only allowed to serve yogurt instead of milk at one meal per day at adult day care centers. If you are serving yogurt as the meat/meat alternate, you may not serve yogurt as the milk substitute at the same meal.
